

We already have way to much cross ownership of newspapers and TV stations. I was very distressed to learn that you are considering removing or weakening the few restraints we have now. The FCC's mandate is to work in the public, not the corporate, interest. In our interest, please enforce the restrictions we now have, strenghten them and extend them to cover cable as well. Democracy does not, can not, work without a free, individualistic and diverse press. Thank-you.
